# Survey Days

We're glad you are interested in contributing to the *Share Project Day Surveys*. To take part, we ask that you keep a diary of your day on the 15th of each month: A few lines for each waking hour is a good format.

We want to know everything about 21st century University life, but are especially interested in what you think and do about your teaching.

We will preserve your anonymity, but you might want to note your user-code and password here:
